

Waverly Place Update 2.0

Fellow Citizens:

On February 1, 2018 I convened a meeting to discuss our next steps on Waverly Place. In attendance were representatives from our Law Community Development and Fire Departments. Our very capable Community Development Director, Allen Mitchell presented a project plan that has a number of elements that I will not bore you with. The bottom line is the the four units in question should be demolished by April 10, 2018.

Obviously, I was very pleased to learn that we have an action plan in place. I will continue to monitor the situation and keep you posted. As I have previously stated, these matters do not tend to progress as fast as any of us might want. But there is a process and I am committed to operating within the confines of the law.

Thanks for your consideration and continued support.

Sincerely,

Steve Bradshaw
